

I am an xm radio sattelite listener. A service for which I pay hard earned TAX dollars. Why would anyone want to stop the progress of technology? Unless, of course, its for for financial gain. Sattelite radio provides me with uncompromised variety and quality unmatched anywhere else. To allow the National Association of Broadcasters to dictate what I am permitted to hear would be a direct violation of the FIRST AMENDMENT and our rights to free speach. XM Radio provides me with invaluble info on traffic and weather and i strongly oppose the NAB's petition 04-160 and urge you to support xm's ability to provide the kind of programming I demand and deserve.

Respectfully yours,

Michael Beas
